VISOFOLD
BIFOLDING DOOR

Creating a feeling of light and space by welcoming more natural light into a wide range of living environments, our secure aluminium doors are stylish, precisely measured and fully customised to your specification.

Our made to measure aluminium bifold doors are made from 100% recycled material and are 100% recyclable , they are powder-coated to create a much longer lifespan by protecting the material from harsh weather conditions.

Superb Thermal Efficiency

Used in modern renovations and new builds, our aluminium bifold doors are the perfect choice; with super low U-values for thermal efficiency to keep your home comfortable throughout the year.

Hardware Choices

We use the Brisant Secure Sweet handle as standard on our bifolding doors. The smooth curved edgeless form of this handle not only looks good but offers a level of security which is hard to beat as it is impossible for mole grips or pliers to grip. This coupled with leading anti corrosion performance, 30 times better than the required UK standard, , means the handles will continue looking sweet for years to come – Brisant are so convinced they guarantee this for 20 years!

ULTION STAYS LOCKED

UPGRADE AVAILABLE TO

- Multipoint locking
- Thermally broken double glazed with U value to 1.5 W/m2K to keep your home warm in the winter and cool during summer monthS
- PAS24:2016 Enhanced Security Performance
- Improved strength and weather resistance
- Available in any RAL colour

Inspired Design

One of the fastest growing trends in glazing, the inspired design of industrial look Crittall style doors and windows is becoming more and more popular with homeowners.

Made in Britain, our Heritage doors and windows come with classic features, including; a handle backplate, bottom kick plate and slim horizontal and vertical glazing bars to complete the iconic industrial finish look, perfect for listed buildings, heritage and conservation areas and for the most stylish homes.

Full range of hardware and colour options

A full suite of hardware options is available, with products specifically designed to match the door and window furniture that is synonymous with Victorian and Art Deco styles – including 'Monkey Tail' and 'Bulb' options.

Available in all the usual colours our Alchemy range offers eight additional choices of anodised colour matches, including shades of gold, bronze, silver, grey and black, and combines the unique style and aesthetics of traditional anodising, with the advantages of a high quality powder coating process giving more of an antique look to the product.

Alithern **Windows**

Available with a flush or chamfered profile, the slim lines of Alitherm 400 provide excellent weather and thermal performance, as well as the security assurance provided by **PAS24** accreditation.

Stylish, Safe and Secure.

Combining outstanding value and quality, with class-leading performance and security, the new Alitherm 400 is a stylish casement windows, perfect for a wide variety of projects.

Alitherm 400's design incorporates our innovative polyamide thermal break technology, which creates a barrier between the cold air outside and warm air inside, significantly reducing thermal transmittance and enhancing the system's overall U-value.

Alitherm 400 is also fully compliant with changes to Document L of the Building Regulations, is rigorously tested to PAS 24:2016 as standard and exceeds the requirements for weather resistance and security performance.

Alitherm 400 Windows

- Building Regulations Compliant
- Fully complies with changes to Document L Building Regs
- Excellent Thermal Performance
- Extended polyamide thermal break for enhanced performance
- PAS 24:2016 Approved
- Enhanced security for aluminium windows and doors

ALU**SPACE**

Steel Look Interior Door and Screen System

The AluSpace Interior Screening System features elegant slim lines to create a light and airy interior environment.

Finally a product range for the inside of the house and a perfect opportunity for you to upsell.

Whether it is now being able to offer your customer the doors between their new conservatory and their lounge or changing an open plan layout into separate spaces then AluSpace is for you.

With a choice of hinged single and double doors, as well as pivot and sliding options to accompany the stylish fixed glazed screen, this flexible and versatile system provides almost limitless design options.

Options also extend to include visible hinges, concealed pivot or sliding mechanisms, enabling the system to be completely tailored to meet virtually any design style.

Integral Blinds

Blinds in Glass fitted within specialist glazing solutions

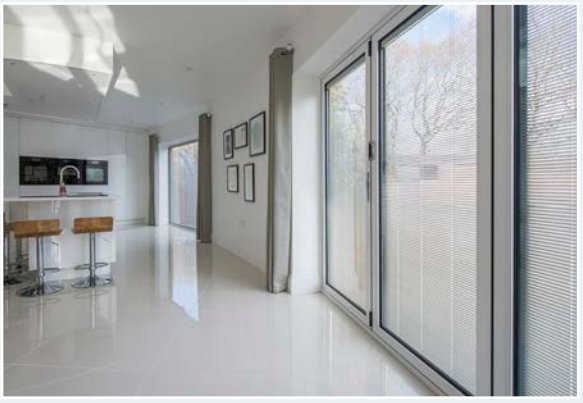
Integral blinds in glass are a neat and stylish alternative to curtains, external blinds and other window dressings for homes or businesses. Choose from Venetian or pleated blinds which fit perfectly inside the double-glazed unit, and means they won't get damaged and will never need cleaning.

All our sealed units are Argon filled and feature a double seal which helps guarantee the quality and energy performance of the windows and doors, long term. Two seals mean extra protection – giving homeowners peace of mind. The secondary seal also gives the insulated glass unit (IGU or sealed unit) its structural strength, ensuring there is no chance of movement once installed. This is especially important in larger sealed units used in patio and bifold doors.

Choices

- SV System **Cordless Slider**
- W Smart System **Solar Control**
- S System **Slider**
- MB System **Motorised Brushless**
- SL16 System **Slim Fit**
- SV+ System **Symmetrical Slider**
- Darkness on Demand **Pleated Blackout**
- C System **Manual Control**

MADE IN GREAT BRITAIN



Colours

Available in a wide range of colours, homeowners will have no trouble finding a Uni-Blind® that fits their room style and décor.

Our pleated blinds are available in a choice of 18 colours and our Venetian blinds are available in 10 colours including S159 anthracite grey, and coordinates perfectly with all our aluminium windows and doors.

ULTION Home Defence System

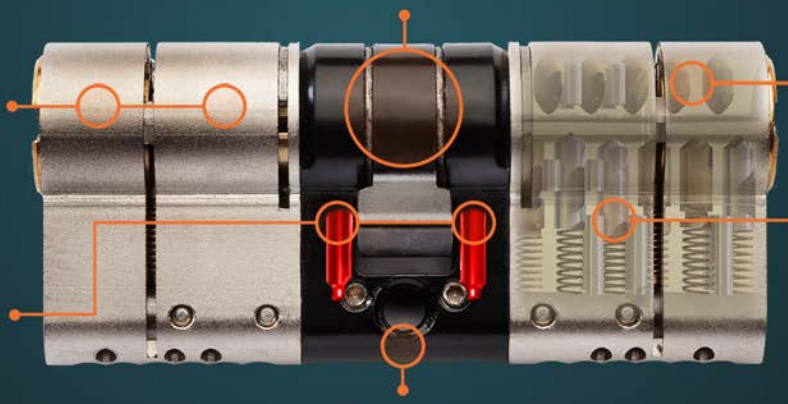
When the Ultion lock detects an attack, it goes into

Lock Down Mode

A hidden attack lock secures the mechanism.

Double
Anti-Snap protection
The intruder needs to snap Ultion twice before he see's the core.

2
Attack locks
Lock still works from inside after an attack.

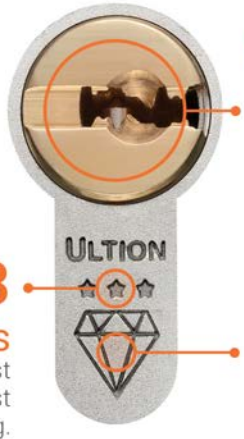


11
Pins
Twice as many as normal locks.

8
Drill Defences
6 hardened steel rods and 2 plates in both ends.

25%
Denser than iron
The molybdenum core that houses the attack pins.

UPGRADE AVAILABLE TO
3 STAR ULTION
Backed by the Ultion £2000 Guarantee



Protects for longer
The close keyway wipes debris off the key to stop jamming and lockouts.

3
Stars
The highest TS007 test rating.

1
Sold Secure Diamond
The standard most 3 star locks can't achieve.

294,970
Combinations
Produced from the 11 pins.

0
Magnets
Magnetised keys carry metal filings from other keys and coins into the lock.

Sweet Handle available as Standard on Bifold and Sliding Doors

Sweet carries multiple coatings of brass and nickel, ensuring it always looks great, even after being hammered with salt water for over 8000 hours. That's an incredible 30x more time than required for the flagship EN 1906:2012 corrosion standard.

Brisant also offers a 10 year direct to homeowner anti corrosion guarantee for peace of mind.
